CAREER OBJECTIVE

To secure a position as a Python Full Stack Developer where I can apply my knowledge of Python, HTML, CSS, Bootstrap, MySQL, and Flask to build impactful web applications. I aim to grow with a forward-thinking organization while continuously upgrading my technical and problem-solving skills.

Professional Experience

Python full stack trainee, Codegnan

07/2025 – Present

Andhra
pradesh,Vijayawada

- Gained hands-on experience in Python Full Stack Development, including HTML, CSS, Bootstrap, MySQL, Flask, and version control using Git/GitHub.
- Worked on mini-projects involving API integration, CRUD operations, and user authentication modules.
- Collaborated with peers and mentors to enhance code quality and apply real-time problem-solving techniques.

Education

B.tech(Artificial intelligence and Data science),
Sri sarathi institute of engineering and technology
CGPA : 6.31

11/2021 – 05/2025

Andhra pradesh, Nuzvid

Board of Intermediate education (M.P.C),
P.B.Siddhartha college of arts and science
CGPA : 7.1

09/2019 – 04/2021

Andhra pradesh,
Vijayawada

Board of secondary education, *Netaji High school*
87%

2018 – 2019

Andhra pradesh,
Vijayawada

Skills

Programming Languages: Python

Web Technologies: HTML, CSS, Bootstrap, Flask

Database Management: MySQL

Version Control: Git, GitHub

Tools & IDEs: VS Code

Data Handling (Basics): Pandas, NumPy, Matplotlib

Certificates

- Python full stack developer (Codegnan)
- Problem solving (Hackerank)
- Python (Hackerrank)
- MySQL (Hackerank)

Projects

Personal Portfolio Website

Technologies: HTML, CSS, JavaScript, Bootstrap

- Built a responsive personal portfolio to showcase skills, certifications, and projects.
- Integrated light/dark mode and smooth navigation for enhanced user experience.
- Hosted the website on GitHub Pages for online accessibility.

Simple Note Management System

Technologies: Python, Flask, MySQL, HTML, CSS, Bootstrap

- Developed a web application to create, edit, and delete notes for efficient information management.
- Used Flask framework for backend logic and MySQL for secure data storage.
- Designed a responsive user interface using HTML, CSS, and Bootstrap.
- Enhanced user experience with a clean, minimal, and intuitive design.

Weather Forecast App

Technologies: HTML, CSS, JavaScript, OpenWeather API

- Created a real-time weather web app that displays temperature, humidity, and weather conditions.
- Used API integration to fetch and display live data dynamically.

Interests

- Web Application Development
- Coding and Problem Solving
- Browsing the Internet to Explore New Technologies
- Learning Modern Frameworks and Tools
- Team Collaboration and Project Building
